Nikolas Castro

Curriculum Vitæ

n1castro@ucsd.edu | https://nik-castro.github.io

Education

Ph.D. in Mathematics, *University of California, San Diego*
Advisor: Kiran Kedlaya
Dissertation: *The Categorical Fargues–Scholze Correspondence at Generic Parameters* — *2021–2027 (expected)*

Visiting Graduate Student, *Institute for Advanced Study* — *2023–2024*

B.S. in Mathematics, *Stanford University*
Departmental honors — *2016–2020*

Study abroad, *Oxford University* — *Spring 2019*

Research

The Fargues–Scholze Correspondence at Generic Parameters
arXiv:2610.38954 — *2026*

Research interests: categorical local Langlands program; arithmetic geometry; geometric representation theory.

Talks

University of Arizona, Number Theory Seminar — *Oct 2026*
Categorical Local Langlands Summit, Seoul — *Jun 2026*
UCSD Number Theory Seminar — *May 2026*

Teaching

Teaching Assistant, *UC San Diego*
Calculus, Probability, Cryptography, Honors Abstract Algebra — *2021–present*

Teaching Assistant, *Euler Circle* (Bay Area math circle) — *2018–2020*
Residential Counselor and TA, *SUMaC* (Stanford University Math Camp) — *Summers 2018, 2019*
Course Grader, *Stanford* (Galois Theory, Differential Geometry) — *2018*

Conferences

Western Algebraic Geometry Symposium (WAGS), five meetings — *2022–2026*
Summer Research Institute in Algebraic Geometry, Colorado State — *Aug 2025*
Arizona Winter School — *2022, 2023, 2025*
Workshop on p-adic Geometry, NUS — *Nov 2024*
100 Years of Noetherian Rings, IAS — *Jun 2023*
Introductory Workshop: Algebraic Cycles, L-Values, and Euler Systems, MSRI — *Jan 2023*
